Winter-Spring 2025

Dear NSF ♦ MSF Umpire,

Enclosed is your 2025 umpire membership application and miscellaneous information. The NSF ♦ MSF will once again offer an unequalled program at the lowest possible cost.

The MSF umpire membership fee is just \$55.00 (at least \$20 less than what other organizations charge) with a \$10.00 discount for those umpires who provide proof of their insurance for 2025 via NASO or the MSHSL when they submit their 2025 MSF membership form. No doubling up on your insurance costs!

You may complete the membership application and pay on-line at www.msfl.org and click on the umpire tab. Then, click on "2025 Umpire Membership" on the right side of the Umpires page. In addition to paying the \$55.00 membership fee, umpires must also attend the on-line live Zoom clinic on **Wednesday, April 16 at 6:30PM** or watch the on-line YouTube clinic and take the open book test (score of 70% or higher required). Toward the conclusion of the on-line YouTube clinic (no in-person clinics this year) you will be given a completion code from the instructor to place on your paper or on-line membership application. In the right hand column of the MSF1.org umpire's page is a tab for : **2025 UMPIRE MEMBERSHIP APP, 2025 ZOOM OR YOUTUBE CLINIC and 2025 UMPIRE EXAM**. You must click on all three and complete them before you are officially registered and insured as an NSF ♦ MSF member umpire. Once all three requirements are met, you will be mailed your membership packet. All three of the above requirements must be completed before you umpire your first game.

The MSF believes in keeping fees for participation as low as possible, including for umpires. (Note: One of our competitors now charges as much as \$90.00 for umpire registration, double what MSF umpires with proof of insurance pay. Their uniforms are also more expensive). Since the formation of the MSF in 1982, we have saved member umpires and teams well over \$1,000,000 in membership and participation costs.

We have another busy season planned for you! Listed below are several highlights of the NSF ♦ MSF Softball umpire program:

1. Umpires working post-season, state or national events must wear heather gray slacks.
2. Umpires who attend a state or national umpire school and demonstrate proficiency will be given priority for post-season state and national tournaments.
3. **Umpires with three or more years of demonstrated state tournament officiating proficiency that are interested in serving as a state tournament UIC should contact their district or applicable state umpire-in-chief/district commissioner to express their interest in serving. Opportunities are available!**
4. When MSF games (league, registered invitational tournament, state or national, etc.) are offered, umpires registered MSF are asked to honor those requests prior to accepting assignments for non-MSF games.
5. Unlike some associations whose liability and accident insurance is only in force when working registered teams from the same association, NSF ♦ MSF softball umpire insurance is in affect for all softball games worked regardless of affiliation. Also, there is no deductible on the medical excess/accidental death policy unlike other associations.
6. **The Sports Federation offers an umpires' uniform program which features quality umpire equipment at low, low prices (see enclosed umpire equipment catalog and save on the best equipment available).**
7. Year circles are no longer provided. Your proof of membership is your membership bag tag.

We thank you for your past support of Federation programs and look forward to again counting you among the more than 400 Minnesota Umpires who are members of NSF ♦ MSF Softball, more than double our previous affiliation.

Best wishes for a successful season of umpiring and do not hesitate to call on the Umpire-in-Chief in your district if you need assistance. A directory is enclosed/attached.

Sincerely,

A blue ink signature that reads 'Perry'.

Perry Coonce
MN State Commissioner

P.S. - It is recommended new umpires attend the Zoom meeting umpire clinic, so you may ask questions if necessary. Please mute your mic unless you are asking a question.

TOURNAMENT UMPIRES SELECTION PROCEDURES

GENERAL INFORMATION

Each year approximately 500 umpires are employed in MSF post-season tournaments. The official's association which services the host community during the regular season is utilized for at least 25 percent of the umpires, if available and qualified. The remaining assignments are distributed to qualified officials who have contacted the MSF State Umpires In Chief and expressed a desire to work. **Prospective tournament officials must possess a minimum of three years officiating experience and have exhibited their competency in regular season and registered invitational tournament play.** Umpires who attend a state or national umpire school during the current year and demonstrate proficiency will be given priority for post-season state and national tournament assignments.

Division	Fee
Adult Slowpitch	1@ \$30 or 2@ \$30
Adult Fastpitch	1@ \$75 or 2@ \$65

Officials who are interested in working tournaments in their district should contact their respective District Umpire In Chief. Officials interested in state or national tournaments should contact the State Umpire In Chief. Written correspondence with references and experience should be sent no later than April 1.

NOTE: Members of officials associations located in communities where a MSF post-season tournament is scheduled need not contact the State or District Umpire In Chief, but must inform their assignment secretary of their desire to work.

When MSF games (league, registered tournament, state, national, etc.) are offered, umpires registered MSF are asked to honor those requests prior to accepting assignments for non-MSF games. If an MSF umpire works a non-MSF assignment when an MSF assignment has been offered they are subject to lower MSF assignment priority in the future for league, registered tournament, regional, national competition, etc.
